REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the instant application is deemed to be directed towards unobvious improvement over the invention patented in U.S. Patent Number 4,750,159. The nature of the improvement with respect to claims 11-30 has previously been stated. The nature of the improvement with respect to claims 1-10 is the extension of the cuff over both insulation and insulation shell to form a circumferential void between inner surface of the cuff, insulation, and insulation shell. With respect to the '159 reference, the cuff 17 extends only around the insulation shell 12b and the blanking pieces 14a, not the insulation. The cuff is distinguished from the pieces used to hold the cuff to the pipe (for example, the tape used in applicant's Figure 6 and the outer portions shown in Figure 3 of the '189 references).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
